## Dear Mr. Niranjan C.G,

We are very much pleased with the work done by "Nizan Robotics Pvt Ltd" and the team. We appreciate the efforts taken to build two-wheeler embedded controller involving functionalities like providing security, remote start, vehicle locator to our Company "Roots Auto Products Private Limited".

We would like to appreciate you and Mr.Ganesh.V. for developing the product with extensive trials to build a stable hardware with numerous technical detailing which gave the hardware the capability of low power consumption, dedicated control architecture, highly secure data transmission with hopping code technology which is critical with regard to the product developed.

Additional capability of the hardware to communicate with mobile phone applications and to provide telematic capability to vehicle is appreciated very much.

It is heartening to note that with limited capital, you have achieved the technical requirements of the product as expected by us.

Wishing you and your team all the best.

With Kind/Regards,

K.Ramasamy
